

Education for all

(tekst/mel: Reinertsen)

Children help children, schools support schools

Education for all should be the rule

So we act locally

Making friends globally

We are helping each other be all we can be

(a) brand new world, where we all can be free

The mightiest weapon is education

The worlds at your feet, schools the salvation

So start helping others

We´re all sisters and brothers

Learning´s the key to less struggle and strife

It´s an ace in the cardgame of life

Chorus:

HEI world, listen , it´s time to see

That you´re no different than me

Zambia, Laos, Peru and Brazil

We create hope where we know there´s a will

Come along, come along

Together we´re strong

We can help a community, give them the tool

All they need is some hope, and a school.
